

Epichem Supplies API Degradants & Impurities for QA/QC & Product Development

Analytical Standards

Epichem's range of standards includes impurities, degradants and metabolites of active ingredients and excipients. The range is continually expanding in response to customer requests and developments in the industry. Our current catalogue can be viewed at www.epichem.com.au

We also supply hard-to-find degradant standards for a number of OTC and generic drugs, and we have considerable experience in the synthesis of deuterated and ¹³C labelled standards.

Bulk Quantities

Bulk quantities of degradants and impurities can be supplied for your toxicity testing and product development requirements.

Quality & Reliability

Epichem understands the industry's need for quality and reliability. We stock a wide range of standards for quick and reliable supply. Our analytical standards are thoroughly characterised and prepared in accordance with a robust quality system. Our laboratory and quality systems have successfully passed audits by four of the world's largest pharmaceutical companies.

We regularly ship to customers throughout the world. Our standards are shipped with full documentation, including a Certificate of Analysis and MSDS, to ensure smooth customs clearance.

Problem Solving, Identification and Synthesis of Degradants and Impurities

Epichem has considerable expertise in the identification and synthesis of new and challenging degradants and impurities. We have provided expert advice on the mechanism of degradant formation and advised of modifications to formulations which have reduced their levels. We have a track record of solving difficult problems for our customers, saving time and money in new product development.

Epichem's Range of API Degradants & Impurities

- Benzylamine
- Bromhexine
- Carbocysteine
- Cetirizine
- Chlorphenamine/ Chlorpheniramine
- Cinchocaine/ Dibucaine
- Codeine
- Dextromethorphan
- Diphenhydramine
- Diphenoxylate
- Domperidone
- Doxylamine
- Guaifenesin
- Ibuprofen
- Loperamide
- Mebendazole
- Minoxidil
- Oxycodone
- Phenylephrine
- Prednisolone
- Ranitidine
- and more...

Custom Synthesis & Drug Discovery

Epichem also provides world-class products and services in synthetic and medicinal chemistry to both the drug discovery and pharmaceutical industries. Further details can be found on our website.
